- Register an account
- Submit abstract
  - Wait for review result (accept/reject)
- Submit paper
- Conference registration & payment
- Submit Camera-Ready and Presentation Slide/Materials

1 Go to <https://conference.frappehub.com/>

2 Click login 

3 Login using email/username and password for existing user.

4 For new user, please register an account by clicking “create one here”.

5 Type in your email address and click “Send me a verification email. Check your mailbox to verify your email. Then click the link in the email proceed with the account registration process.

Next, fill in the profile information (refer next slide).

The screenshot shows the FrappeHub Conference Portal. At the top, there is a navigation bar with links for 'Home', 'Create event', and 'Room booking'. The main content area displays a welcome message and a search bar. On the right, there is a 'News' section with several event announcements. Below the main content, there are three event cards: 'International Conference on Communication in Scientific Inquiry and Technology' (1 event), 'International Symposium of Medical Engineering Research (ISoMER)' (1 event), and 'A3I CAMPUS ASIA PLUS' (1 event). At the bottom, there are two overlapping windows: a login window on the left and a 'Create a new FrappeHub profile' window on the right. The login window shows a placeholder for 'Email address' and a 'Forgot my password' link. The registration window shows a placeholder for 'Email address', a CAPTCHA section with the text '1:506', and a 'Send me a verification email' button.

Title \* IoT for climate change

Content \*

UK environmental organizations currently face a significant funding gap. It is well-established that representations of individual victims are more effective than abstract concepts like climate change when designing fundraising campaigns. This study aims to determine how such representations can be better targeted in order to increase donations. Specifically, it investigates whether the perceived social distance between victims and potential donors has an impact on donation intention. In this context, social distance is defined as the extent to which people feel they are in the same social group (in-group) or another social group (out-group) in relation to climate change victims.

UK environmental organizations currently face a significant funding gap. It is well-established that representations of individual victims are more effective than abstract concepts like climate change when designing fundraising campaigns. This study aims to determine how such representations can be better targeted in order to increase donations. **Scientific Program**

**2021 Theme Societal Impacts of Digital Disruption**  
It was chosen to reflect how COVID-19 speeded the adoption of digital technologies by several years in many domains and to focus on the implications of this pandemic. Technological development has long been considered a disruptive force, provoking change at many levels, from individuals' routine daily activities to dramatic global superpowers' competition. In just a few months, the COVID-19 crisis has brought about years of change in the way companies in all sectors and regions do business, leading to a quantum leap at both the organizational and industry levels.  
Further, the ongoing developments in the MENA region focus on the deployment of 'Digitalization' to facilitate and operate the principles and policies remotely. This introduces a new world of digitalized work that binds the ties to keep you connected with the rest of your community, and spreads ideas even when you are apart!

**IoT in Healthcare** IOT1  
IoT in healthcare for Session 1

**IoT in Automation Industry** IOT2  
IoT in Automation Industry in Session 2

**AI and Machine Learning in Environmental Protection**  
AI and Machine Learning in Environmental Protection in Session 2

**International Conference on Artificial Intelligence & Internet of Things 2022**

Feb 1, 2022, 11:00 AM → Mar 1, 2022, 1:00 PM Asia/Kuala\_Lumpur

UniMAP  
Ammar Zakaria

Description IoT conference allow the participants explore all kind of cutting edge technologies.

**International Conference on Artificial Intelligence & Internet of Things**

The IEEE Global Conference on Artificial Intelligence and Internet of things  
Industry Summit  
Triple Helix Exhibition  
Africa IoT & AI Challenge  
IEEE 5G Summit  
Women in Tech

**Participants**  
Ammar Zakaria, Ahmad Shakaff, Chew Cheik Goh, Latifah Munirah Kamarudin
