

5th Joint International Conference on Nanoscience & Nanoengineering x International Conference on Advanced Technology and Multidiscipline

Thursday, 1 October 2026

Session 3C - Mawar 1&2, Level 3 (08:45 - 10:45)

time	[id] title	presenter
08:45	[64] Frequency-Dependent Impedance Response of Natural Hydroxyapatite/PVA Composite Films from Waste Bovine Bone for Humidity Sensing	Dr RUSTAMI, Erus
09:00	[68] Ischemic Stroke Localization on Non-Contrast CT-Scan (NCCT) Images Using Residual Network-Convolutional Block Attention Module (ResNet-CBAM)	NETHANIA, OLIVIA
09:15	[70] Development of a Bioabsorbable Alginate–Chitosan Composite Membrane to Prevent Postoperative Intra-Abdominal Adhesions	Dr DARMADJI, Edwina
09:30	[73] Structure and Electronics Modification of Solar Cells Absorber Cu ₂ ZnSnS ₄ Doped Magnetic Element Mn	AMRILLAH, Tahta
09:45	[81] Evaluating Recycled Polypropylene as a Sustainable Substrate for SPEs: Performance Benchmarking Against Other Virgin Plastic Substrates with Diverse Surface Properties	AMIR, ATHIRAH
10:00	[57] Adsorption of drug waste contaminants by graphene oxide nanosheet: a computational approach	SUMARYADA, Tony
