Author can now submit an abstract

1 Click the 'Submit new abstract'.

2 Fill in the detail required.

The screenshot shows the UniMAP Conference Portal. At the top, it displays the conference title: "International Conference on Artificial Intelligence & Internet of Things 2022" and dates: "February 1, 2022 to March 1, 2022". A search bar is present. Below the header, there is a section titled "Bridging the Gap between Research and Implementation". A navigation menu on the left includes items like "Overview", "Call for Abstracts", "Scientific Program", etc. The main content area features a banner for the conference and a "Submit new abstract" button highlighted with a yellow circle and a "1" icon.

The screenshot shows the "Submit new abstract" form. The "Title" field contains "IoT for climate change". The "Content" field contains a paragraph of text. The "Contribution type" is set to "No type selected". The "Authors" field shows "one, participant" with a "Speaker" button. The "Comments" field is empty. The "Attachments" field has a "Choose from your computer" button. The "Tracks" section has "AI and Machine Learning in Environmental Protection" selected. The "What is your experiment?" section has "Machine Learning" selected. A yellow circle with a "2" is positioned above the form, and a yellow hand cursor points to the "Submit" button.

1 Once submitted, author need to wait for reviewing (accept/reject)

2 Click on the abstract title to view the submission detail/status

Bridging the Gap between Research and Implementation
 In the 2022 ICAIoT, you will be able to meet with people from a wide range of backgrounds, who you may not encounter at your workplace or institution. This is a perfect place for meeting with people in your field with whom you haven't made contact in a while.

UK environmental organizations currently face a significant funding gap. It is well-established that representations of individual victims are more effective than abstract concepts like climate change when designing fundraising campaigns. This study aims to determine how such representations can be better targeted in order to increase donations.

Author: participant one

UK environmental organizations currently face a significant funding gap. It is well-established that representations of individual victims are more effective than abstract concepts like climate change when designing fundraising campaigns. This study aims to determine how such representations can be better targeted in order to increase donations. Specifically, it investigates whether the perceived social distance between victims and potential donors has an impact on donation intention. In this context, social distance is defined as the extent to which people feel they are in the same social group (in-group) or another social group (out-group) in relation to climate change victims.

The screenshot displays the UniMAP Conference Portal interface for a paper titled "RFID detect moisture content With IoT".

- Navigation Menu (Left):** Includes Overview, Call for Abstracts, Scientific Programme, Timetable, Conference Fee, Registration, Contribution List (highlighted), Author List, Speaker List, My Conference, My Contributions, Paper Peer Reviewing, Participant List, Accommodation, Secretariat, Exhibitors, Sponsorships & Donations, and Contact.
- Paper Overview (Main):** Shows the paper title, status (Not scheduled), duration (20m), and location (UniMAP). It lists the speaker (Dr Latifah Munirah Kamarudin) and the primary author (Dr Latifah Munirah Kamarudin). The description includes the text "Here is the test abstract." and "What is your experiment? Deep Learning". It also shows a section for "Presentation materials" which is currently empty.
- Paper Editing (Sidebar):** Contains sections for "OTHER MODULES" (Call for Abstracts, Peer Reviewing) and "OTHER VIEWS" (Display).
- Submission Status (Main):** Shows the paper is in a "Needs Changes" state. It lists the PDF file "ticket_for_AS22.pdf" and the "SUBMISSION DECLARATION FORM" with a "Download ZIP" button. A moderator's note states: "Moderate: Need correction".
- Comment History (Main):** Shows a comment from "Judge two" on 21 January 2022. A subsequent comment from "editor one" on 15 March 2022 lists requirements: "Please check the figure format", "Please correct the Table format", and "Please correct the margin". A "Submit new revision" button is highlighted with a yellow circle '1'.
- Upload Corrected Revision (Main):** A form for uploading a new revision. It shows the PDF file "RFID detect moisture con..." and the "SUBMISSION DECLARATION FORM" with a "Submit new revision" button highlighted with a yellow circle '2'.

Once the author submit the final paper, author need to register the paper.

The registration can be done through:

1 Click **Registration**

The registration option will be available for authors to choose. For example, international registration or local registration.

2021 Theme Societal Impacts of Digital Disruption

It was chosen to reflect how COVID-19 speeded the adoption of digital technologies by several years in many domains and to focus on the implications of this pandemic. Technological development has long been considered a disruptive force, provoking change at many levels, from individuals' routine daily activities to dramatic global superpowers' competition. In just a few months, the COVID-19 crisis has brought about years of change in the way companies in all sectors and regions do business, leading to a quantum leap at both the organizational and industry levels.

Further, the ongoing developments in the MENA region focus on the deployment of "Digitalization" to facilitate and operate the principles and policies remotely. This introduces a new world of digitalized work that binds the ties to keep you connected with the rest of your community, and spreads ideas even when you are apart!

i Bridging the Gap between Research and Implementation
In the 2022 ICAIoT, you will be able to meet with people from a wide range of backgrounds, who you may not encounter at your workplace or institution. This is a perfect place for meeting with people in your field with whom you haven't made contact in a while.
