

International Conference on Frontiers of Chemical and Materials Engineering (ICoFChem 2023)

Monday, 4 September 2023 - Tuesday, 5 September 2023

Conference Topics

Materials Engineering

Ceramics & Electroceramics
Materials for Electronics and Electrical Industry
Computational Modeling
Materials
Materials in Environmental Engineering & Construction
Advanced Materials
Advanced Material Processing Technology
Polymers
Composites Manufacturing

Metallurgical & Minerals Engineering

Steels and Alloys
Surface and Coating
Minerals and Mineral Processing

Chemical Engineering

Food / Pharmaceutical engineering and manufacturing
Biotechnology / Bioprocess
Fluid flow and thermodynamic
Bioenergy / Green technology and Renewable energy
Process Control
Instrumentation and Optimization
Reaction and Catalysis engineering
